

Face Dementia

Timely diagnosis helps.

1 in 12 people aged 65+ are living with dementia.

Face Dementia includes a public help-seeking campaign and primary care program in Western Sydney.

GPs and practice nurses have a key role in identifying, diagnosing and post-diagnostic care of people with dementia.

The Face Dementia practice change program includes:

- ✓ 3 hours of live zoom training for GPs and Practice Nurses
 - Round 1: February – March 2024
 - Round 2: April – June 2024
- ✓ Face Dementia Toolkit (practice resources)
- ✓ Community of Practice sessions supported by a geriatrician
- ✓ CPD hours*
