Conversation Starters for General Practitioners:

MyMedicare Practices

We are a MyMedicare practice.

MyMedicare allows you as a patient to choose a general practice for ongoing care for your health and wellbeing needs.

MyMedicare is voluntary and you can change your registered general practice if you need to.

MyMedicare links you to our practice for ongoing coordination of your care. This relationship helps other providers (allied health, hospitals, ambulance, specialists) identify your general practice through your My Health Record.

If you haven't already registered, you can register today using the **myGov App**. You will need to have a myGov Medicare Online Account to be able to use the myGov app for Medicare purposes.

If you have enabled notifications, we can send you a link to register MyMedicare with our practice.

If you prefer, our reception team do have some printed forms, just ask them to provide you with a MyMedicare Registration form to complete.

Chronic Condition Management - Patients not currently on a GPCCMP:

As you have (insert chronic conditions) I would like to prepare a Chronic Condition Management Plan with you.

A Chronic Condition Management Plan helps us manage your health condition and includes:

- Discussing and agreeing on your health goals
- Outlining how we'll support you with regular care and the actions you can take to manage your health
- Up to 5 Medicare-subsidised visits to allied health providers

We also recommend registering for MyMedicare, this will help link you to us as your regular practice — to assist with coordinating your care. Patients that are not registered in MyMedicare may access GPCCMP services through their usual GP.

 Longer appointments are needed to set up your plan

 You'll have periodic reviews to update your management plan with me and the care team here. These can help us actively work together to manage your chronic condition, pick up any changes early and keep you healthy. Your GP will advise you when your management plan is due for review.

Our reception team can help you today to make the first appointment to develop the Chronic Condition Management Plan so we can all work together to help you manage your condition(s).

Chronic Condition Management - Patient already on a GPCCMP:

I have noticed on your health record that you are due for a new Chronic Condition Management Plan or Management Plan Review for your chronic condition(s).

A Chronic Condition Management Plan helps us manage your health condition and includes:

- Discussing and agreeing on your health goals
- Outlining how we'll support you with care and actions you can take to manage your health
- Up to 5 Medicare-subsidised visits to allied health providers as referred by your GP

We also recommend registering for MyMedicare, this will help link you to us as your regular practice — for ongoing coordinated care. Patients that are not registered in MyMedicare may access GPCCMP services through their usual GP.

🕒 As you know, longer appointments are needed to set up your management plan.

📅 You'll have periodic reviews to update your management plan with me and the care team here. These can help us actively work together to manage your chronic condition, pick up any changes early and keep you healthy. Your GP will advise you when your management plan is due for review.

At your management plan appointment, we will discuss how to actively manage your condition together and plan for any tests and scripts as well as track progress on your health goals and allied health appointments.

Mental Health Treatment Plan - Patients not currently on a MHTP:

As you have (insert mental health conditions) I would like to discuss preparing a Mental Health Treatment Plan with you.

A Mental Health Treatment Plan helps us manage your (insert health condition) and includes:

- Discussing and agreeing on your mental health goals
- Outlining how we'll support you with regular care and the actions you can take to manage your health
- Up to 10 individual and 10 group Medicare-subsidised treatment sessions with mental health care providers.

Are you registered with our practice for MyMedicare, or are you registered at another general practice, and do you have a chronic condition management plan with another practice?

- **IF YES**- If you are registered at another practice for MyMedicare or have a Chronic Condition Management plan, we can still support you to develop a Mental Health Treatment Plan. If you like, we can communicate with them to ensure your Mental Health and Chronic Condition care is coordinated (with your consent).
- **IF NO** - If not, you may wish to register with our practice for MyMedicare, this will help link you to us as your regular practice — to assist with coordinating your care, this is voluntary, and you do not need to register for us to develop a Mental Health Treatment Plan.
- **IF UNSURE** – Have the patient check their MyGov app, click on services, then Medicare, then MyMedicare OR Check their MyHealth Record, or their MyMedicare registration status in your practice software.

🕒 Longer appointments are needed to set up your plan

📅 You'll have periodic reviews to update your management plan with me and the care team here. These can help us actively work together to manage your mental health condition, pick up any changes early and keep you healthy. Your GP will regularly review and update your mental health treatment plan.

Our reception team can help you today to make the first appointment to develop the Mental Health Treatment Plan so we can all work together to help you manage your condition(s).

Practice Manager/ Reception Staff

MyMedicare

We are a MyMedicare practice.

MyMedicare allows you to choose a general practice for ongoing care for your health and wellbeing needs.

MyMedicare is voluntary and you can change your registered general practice if you need to.

MyMedicare links you to our practice for ongoing coordination of your care. This relationship helps other providers (like allied health, hospitals, ambulance, specialists) identify your general practice through your My Health Record.

If you are comfortable using the **myGov App** it's a quicker way to register. You will need to have a myGov Medicare Online Account to be able to use the myGov app for Medicare purposes. If you would rather a paper form, we have some registration forms here.

Tip: Have the MyMedicare poster handy in reception to point to with the QR code that patients can scan in the waiting room and register while they are waiting.

Chronic Condition Management

If you have a health condition that lasts six months or more, you may be eligible for a Chronic Condition Management Plan. This allows us to work with you to develop a clear plan for health management and provides up to 5 subsidised allied health appointments such as a physio, chiropractor, podiatrist or dietitian with a referral from your GP.

We also recommend registering for MyMedicare, this will help link you to us as your regular practice — for ongoing coordinated care. Patients that are not registered in MyMedicare may access GPCCMP services through their usual GP.

Would you like to book a longer appointment to get started or get more info?
