

# Are you looking for another GP?

WentWest can advertise your vacancy to GPs looking for work.

From time to time WentWest receives requests for information from GPs looking for work within the WentWest area. To assist doctors looking for work to find a position WentWest aims to compile and maintain a register of practices looking to hire additional GPs. This information will be provided to GPs looking for work and advertised on the WentWest website.

In order to facilitate the recruitment process WentWest aims to make available answers to the most commonly asked questions including:

- What Sessions will I be required to work?
- Will the practice be interested if I am an IMG / non-VR?
- What is good about this practice?
