Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

The main aim of this funding and the transitioning funding arrangement from 1 July 2017 is to increase the availability of drug and alcohol treatment services for individuals and communities whilst providing for a more sustainable drug and alcohol treatment sector in the future.

The organisations involved should be working towards or are currently accredited with the National Quality Framework (NQF).

Description of Activity *

Drug and Alcohol rehabilitation services provide functional recovery capacity, attitudinal and behaviour change skills for participants to achieve long term behaviour change with regard to drug or alcohol dependence.

Services can be residential, day only or community outreach and are provided by a mixture of professional and peer workers. Current services funded by the Commonwealth will continue with existing funding levels for another 12 months (2019/20).

The following two years until 30 June 2022, is subject to a regional needs assessment and service provider performance.

Contract management will be provided by the WSPHN.

Modified

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

This activity aims to:

- Enhance drug and alcohol rehabilitation services to provide functional recovery capacity, attitudinal and behaviour change skills for participants to achieve long term change with regard to drug or alcohol dependence.
- Incorporate priority group funding for access for families, people in transition from prison and also other priority population areas such as those from the CALD, LGBTIQ communities, homeless people, young people and/or Aboriginal and Torres Strait Islander people.
- Provide a more sustainable drug and alcohol treatment sector in the future.
- The organisations involved should be working towards or are currently accredited with the National Quality Framework (NQF).

Description of Activity *

These projects will combine treatment elements and short-term capacity building for the AoD service providers to be able to respond to priority populations and sustainable elements that will continue to:

- Build consumer leadership in service co-design
- Provide services by a mixture of professional and peer workers (services can be residential, day only of community outreach)
- Increase sustainable family support so that family members with AoD issues are in turn supported to access and complete treatment and experience social inclusion during recovery
- Establish pathways for prisoners on remand and/or short term sentences with significant AoD issues to access treatment and support for re-integration into the community.

Activity Title *

AOD3 NIAS Transition models from the criminal justice system to the community

Existing, Modified or New Activity *

Modified

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

This activity aims to:

- Provide case management services to clients leaving the justice system, which includes linking clients to other services to develop community based release plans.

Description of Activity *

Western Sydney PHN (WSPHN) region has the highest proportion of patients recently released from criminal justice facilities in NSW. These patients are at higher risk of overdose than the general population.

WSPHN will commission services to provide an appropriate AoD model of care for people transitioning to the community from the criminal justice system.

This activity will build on the pilot project which established a strong relationship with Silverwater Metropolitan Remand and Reception Centre (MRRC) staff and established warm referral pathways with multiple services.

Work will also continue with local GP's to build capacity regarding supporting people with complex AOD use on release from custody.

An AOD transition worker will be employed to support men at risk of problematic AOD use who are based at the MRRC, Silverwater. The worker will also work closely with AOD services and relevant stakeholders to continue to facilitate warm referral pathways for people exiting MRRC into the western Sydney region.

The service provider will build on the successful referral process set up in the pilot stage of the project. This includes a flexible referral process which involves receiving referrals from welfare, justice health and legal aid staff within the prisons.

Needs Assessment Priorities *

WSPHN Needs Assessment 2019/20-2021/22

Priorities

Needs Assessment Priority	Page Reference
Vulnerable Populations: Prisoners	11
Comorbidities - People with Chronic, Complex Conditions and Mental Illness: Health literacy (navigation of the health system and social support)	23

Alcohol and Other Drugs	38

Activity Demographics

Target Population Cohort *

Clients leaving the justice system planning to return and reside in western Sydney.
People on remand who are homeless and extremely transient, and not able to identify an area that is considered 'home'.
Because Silverwater Correctional Complex is located in the Western Sydney region, this population (during their period of time residing at the MRRC) will also be considered to be residents of Western Sydney.

The aim of this activity is to improve the assessment and treatment of clients with AOD and comorbidity issues by delivering workforce development activities to GP's and Pharmacists.

The organisations involved should be working towards or are currently accredited with the National Quality Framework (NQF).

Description of Activity *

This activity includes;-

Workforce development activities to be delivered across the WSPHN region to health care professionals. The training will address identified gaps in service delivery to assist with improving the assessment and treatment of clients with AOD and comorbidity issues.

Feedback received from workshops delivered in 2018/19 will be considered for future training and development topics.

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

The aim of this activity is to address some of the recommendations made by the “investigating alcohol and other drug service needs of young people in Western Sydney” report commissioned and completed in January 2019.

Description of Activity *

Consultation with many AOD and generalist youth providers occurred. Areas for improvement for young people with AOD issues and the broader community sector were identified.

This activity will be commissioned, and the key recommendations listed below will be addressed.

1. Development of strategies to integrate services, support transition of young people between clinical AOD services and community organisations.
2. Increase awareness and knowledge of AOD referral pathways and treatment options for young people among generalist youth service providers.
3. Close gaps in awareness of available AOD training opportunities and generalist youth workforce training needs.
4. Increase collaboration among service providers to share resources and knowledge.

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

The aim of this activity is to build capacity between tertiary and primary health care sectors to assist with increasing clinical understanding, referral pathways knowledge and movement of complex clients, in particular long- term users of methamphetamine.

Description of Activity *

This activity will carry-over into 2019/20.

Details of the activity include:-

1. Developing a stepped care and person-centred approach covering a continuum of AoD services.
2. Prioritise models that provide a bridging service for patients leaving Emergency Departments and other WSLHD tertiary settings and primary health care supports.
3. Promote access to AoD specialist advice, primarily via the WSLHD Drug Health Addiction medicine specialists and secondarily, via the Drug and Alcohol Specialist Advisory Service (DASAS).
4. AOD practice development engagement and training; information bundles for patients; pharmacy engagement in AOD screening and education project
5. Innovative models of engagement with general practice will be utilised to drive engagement with Drug & Alcohol professional development, service provision and increase health literacy of general practice patients.

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

The aim of this activity is to improve the management of mental health and AoD co-occurring disorders.

Description of Activity *

This activity will be co-commissioned with WSPHN Mental health. Services to be commissioned will include comprehensive assessments of co-occurring conditions, evidence based psychosocial counselling and provision of health service navigation / care co-ordination and aftercare support for people with complex co-morbid needs.

This activity is broken down by sub-activity and an indicative budget against each sub-activity is listed below:

1. Residential Rehabilitation services - \$
2. Case Management - \$

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description**Aim of Activity ***

The aim of this activity is to develop appropriate guidelines for contracting alcohol and other drug treatment services and to assist in making the services more culturally acceptable for Aboriginal and Torres Strait people.

Description of Activity *

This activity will carry-over to 2019/20.

The WSPHN is applying appropriate approaches to its corporate governance to support service providers by building pricing structures into commissioning models that incorporate all the components of service provision including support costs; create greater certainty for services and their clients through reasonable contract periods and transparent and predictable processes for contract renewals.

The WSPHN seeks access to state data on service capacity and resourcing to better map existing service delivery. WSPHN will also seek access to the calculators and pivot tables in the DASP modelling tool from state or Commonwealth health agencies to receive more precise modelling information on staffing and resources.

WSPHN will continue its work with NGO providers to reduce contract compliance burden whilst meeting PHN contractual requirements. 'Proof of concept' projects with providers to potentially align reporting requirements across multiple providers will continue.

Activity Priorities and Description

Program Key Priority Area *

Alcohol and Other Drugs

Other Program Key Priority Area Description

Aim of Activity *

The aim of this activity is to support Aboriginal and Torres Strait Islander clients with AOD issues and their families and to expand the availability of rehabilitation places.

The organisations involved should be working towards or are currently accredited with the National Quality Framework (NQF).

Description of Activity *

Epidemiologically based modelling by the NSW AoD NGO peak body, NADA, indicates that less than 50% of the need for rehabilitation places are funded in NSW. This activity will seek to expand the availability of rehabilitation places for Aboriginal and Torres Strait Island people available within western Sydney PHN.

This activity has commissioned additional capacity from an Aboriginal community-controlled service provider for the purposes of providing Indigenous-specific AOD treatment services. Services include care coordination, case management, counselling and enhancing systems capacity. Weighting applied to services that can demonstrate innovative and culturally appropriate models of care and services that demonstrate they can provide effective services for women and men and families.

The service will support clients with AOD issues, with or without co-morbidity, and their families, through their treatment and wellness journey, utilising both internal services and referral pathways/linkages (such as legal, employment, medical, child and family care and housing).
