HEALTHPATHWAYS	
ACTIVITY TITLE	CF2 Care Pathways (HealthPathways) (CF 2.1)
Existing, Modified, or New Activity	Existing Activity <i>2018-19 AWP – Care Pathways – CF 2.1 HealthPathways</i>
Program Key Priority Area	Digital Health
Needs Assessment Priority	2018 Needs Assessment Priority number: 2 Priority title: Digital Health Page reference: 4,5,6 Possible option identified: Yes
Aim of Activity	<p>The key aim of the program is to improve the overall quality of care received in the region by providing Primary Care clinicians with up to date information and guidance on the agreed management of various medical conditions. Utilisation and adherence to the care pathways can:</p> <ul style="list-style-type: none"> - Decrease variations of care in primary care, and unwarranted care - Increase GP capacity to manage patients within the community - Avoid unnecessary hospital admissions - Effectively manage chronic and more complex care in a community setting - Reduce the number of inappropriate referrals - Improve quality of referrals to specialists - Increase patient access to services <p>The corresponding objective of the program is to improve collaboration and coordination across the healthcare sector; specifically, between primary, specialist, and hospital services. Engagement of clinicians throughout the care continuum in the planning and development of care Pathways offers opportunities to:</p> <ul style="list-style-type: none"> - Collaborate on service re-design initiatives - Identify potential service gaps in the region - Strengthen relationships of primary and secondary care providers. – - Build capacity amongst primary care providers to manage a wider range of conditions in the community
Description of Activity	<p>This activity will be commissioned. All flexible funding for this activity is to be paid to Streamliners NZ (The providers of the Health Pathways platform). These costs include the hosting of the site, content management provided by Streamliners, and access to the library of pathways.</p> <p>HealthPathways is a web-based health informational portal for General Practitioners and other healthcare providers to utilise during a consultation to assist with the assessment, management, and referrals to local specialists and services. It also provides patient information, reference materials, and education resources to increase the capacity for patients to actively assist in the management of their own health.</p> <p>Pathways are developed by GP Clinical Editors in collaboration with a range of healthcare professionals including; specialists, nurses, and allied health providers. All pathways are periodically reviewed and updated as required by GP Clinical editors.</p> <p>The provision of technical writing, community fees, website hosting and a sophisticated system to keep track of content in development.</p>

Target population cohort	General practitioners, nurses, allied health professionals, NGO community service providers and specialist Clinicians in the western Sydney PHN region
Indigenous specific	No
Coverage	Entire western Sydney PHN region
Consultation	<ul style="list-style-type: none"> - Western Sydney HealthPathways Steering Committee: Quarterly strategic governance meetings involving: Clinical Leads and executives from Western Sydney Primary Health Network (WSPHN), Western Sydney Local Health District (WSLHD) and the Sydney Children's Hospitals Network (SCHN). - Western Sydney HealthPathways Paediatric Advisory Group: Quarterly strategic governance meetings involving: Clinicians and personnel from WSPHN, WSLHD, SCHN. - Clinical Stream Planning Meeting: Consultation and planning meetings involving: Heads of Departments (WSLHD, SCHN), GP Clinical Editors, and representatives from relevant service providers. - Clinical Stream Development Working Group Meetings: Wider consultation on pathway development involving healthcare and social service professionals from western Sydney. - HealthPathways Primary Care Educational Activities: Consultation with peak bodies and hospital services on development of education activities for primary care providers in western Sydney.
Collaboration	<p>Below is a list and description of the role of each stakeholder that will be involved in designing and/or implementing the activity;-</p> <ul style="list-style-type: none"> - Western Sydney Local Health District: Strategic Governance and coordination of hospital clinicians and services participation - Sydney Children's Hospital Network: Strategic governance and coordination of hospital clinicians and services participation - Local Primary Healthcare Providers: Participation in working groups, pathway feedback and reviews - National and State Peak Bodies: Peak bodies are often engaged in the development of pathways providing up to date research, condition specific management guidelines, and national and state health programs - HealthPathways Community – Sharing of pathways across regions, collaboration on pathway development, educational, and promotional activities. - Local community health groups – Consultation and participation in working groups. - Streamliners New Zealand – Website administration and Technical Writing

ABORIGINAL HEALTH	
ACTIVITY TITLE	<i>CF3 Aboriginal and Torres Strait Islander Health (CF3.1)</i>
Existing, Modified, or New Activity	Modified Activity <i>2018-19 AWP - CF 3.1 Aboriginal and Torres Strait Islander Health (part of the activity will be co-commission with CF8 Alcohol and Other Drugs- Supporting juvenile justice clients)</i>
Program Key Priority Area	Aboriginal and Torres Strait Islander Health
Needs Assessment Priority	2018 Needs Assessment Priority number: 1,2,3,5,6 Priority title: Indigenous Health Page reference: 35-40 Possible option identified: Yes
Aim of Activity	<p>This activity aims to contribute to the provision of culturally safe and accessible health care for Aboriginal and Torres Strait Islander peoples by working across the primary health care sector to improve access and delivery of culturally appropriate mainstream health services and identification of any gaps.</p> <p>One of the commissioned activities key aim is to support Indigenous young people to maintain their culture, appreciate their heritage and reconnect with elders to reduce contact with the juvenile justice system and enhance school retention rates.</p>
Description of Activity	<p>The WSPHN will continue to expand its Aboriginal health focus whilst ensuring culturally appropriate and safe environments within western Sydney. Due to the intricate nature of this activity WSPHN will employ an Aboriginal person to independently guide and coordinate the complex nature of Aboriginal and Torres Strait Islander health and social and emotional wellbeing services in the area.</p> <p>Critical success factors for this function will be impartiality, the ability for this person to move across health sectors and current structures in the WSLHD and the ACCHO sector, ensure engagement of the community and manage change.</p> <p>Key activities to be targeted include:</p> <ol style="list-style-type: none"> 1. Improving overall health literacy through education and influencing better lifestyle choices in nutrition, substance abuse and exercise. 2. Promote affordable and culturally appropriate health services and support navigation through the health system and mitigate the risk of untreated or developing chronic conditions. 3. Promote the benefits of early access to antenatal shared care to improve maternal health and parenting. 4. Continue to commission a service to engage young people into a non-traditional health and welfare setting to improve healthy behaviours and help-seeking behaviour. 5. Co-commission with AOD program delivery of the juvenile justice program to provide support for clients affected by alcohol and other drugs to transition back into the community. 6. Work in partnership with stakeholders to strengthen social and emotional wellbeing of communities.
Target population cohort	Aboriginal and Torres Strait islander people living in western Sydney, WSPHN commissioned service providers and the broader primary health care

	workforce. Focusing on mainstream service providers, such as general practitioners, practice managers and nursing staff and reception staff.
Indigenous specific	Yes Engagement occurs at community events, cross inter-agency meetings and yarning circles.
Coverage	Entire western Sydney PHN region
Consultation	<ul style="list-style-type: none"> - Western Sydney Local Health District: Extensive consultation, including their overarching western Sydney Aboriginal Health plan. - Associated Committees: These committees include representatives from service providers involved in the care and management of Aboriginal and Torres Strait Islander peoples. - WSPHN Advisory Groups: These include the Clinical and Consumer Advisory Councils in which regular consultation is undertaken. - Community members: Discussions with Elders and service providers - Service Providers: GWAHS, Marrin Weejali, Ted Noffs regular catch-ups - Local health care stakeholders: including local health networks and other local stakeholders relevant to addressing health matters <p>Further consultation will be conducted throughout the planned period to ensure the services being delivered are in line with stakeholder and community needs and priorities.</p>
Collaboration	<p>Below is a list and description of the role of each stakeholder that will be involved in designing and/or implementing the activity;-</p> <ul style="list-style-type: none"> - Local Community: Consult and gather feedback - Western Sydney Local Health District: Strategic Governance, coordination of care and services participation - Sydney Children’s Hospital Network: Strategic governance and coordination of care and services participation - Local Primary Healthcare Providers: Participation in working groups, pathway feedback and reviews - NGO’s - Partnership Committees: These committees will play a key role in helping to shape and design the services to be commissioned based on their experiences and needs. Representatives from these committees may also form part of the independent tender evaluation panel which evaluates successful applicants. - Consumers: Organisations are required to obtain consumer input into the design of their proposed projects. A consumer representative will also be present as part of the independent tender evaluation panel.

CHRONIC DISEASE	
ACTIVITY TITLE	<i>CF5 Chronic Disease Prevention and Management (CF 5.1)</i>
Existing, Modified, or New Activity	Modified Activity <i>2018-19 AWP – (Combined CF 5.1 Prevention and Management of chronic disease in primary care and CF 6.3 Healthy Lifestyle Project)</i>
Program Key Priority Area	Population Health
Needs Assessment Priority	2018 Needs Assessment Priority number: 3 Priority title: Chronic Disease Page reference: 7, 8 Possible option identified: Yes
Aim of Activity	The aim of this activity is to; <ul style="list-style-type: none"> - Enhance the prevention and management of chronic disease in primary care by implementing initiatives that will increase provider capability and capacity to better manage chronic disease patients. - Foster the principles of Integrated Care and Health Care Home of team based, coordinated care focused on quality outcomes. - Increase healthy lifestyle initiatives available to residents of western Sydney - Increase and enhance chronic disease prevention and management services available in western Sydney.
Description of Activity	The programs and initiatives that will be implemented under this activity include, but are not limited to: <ol style="list-style-type: none"> 1. Initiatives executed in partnership with the WSLHD and other partners to enhance the prevention and management of chronic disease in primary care. This uniquely integrates primary and acute care to address the needs of western Sydney. 2. Programs to integrate pharmacists into the patient care team in the primary care setting. 3. Tools and programs to assist primary care practitioners in the management of chronic disease. 4. Commissioning of services to enhance chronic disease prevention and management initiatives across western Sydney. 5. Initiatives and activities relating to disease surveillance, prevention, research and health promotion.
Target population cohort	Entire WSPHN population
Indigenous specific	No
Coverage	Entire WSPHN region
Consultation	Consultation has occurred with the following stakeholders: <ul style="list-style-type: none"> - GPs - Primary Care Nurses - WSLHD - Western Sydney University - Agency of Clinical Innovation

	Further consultation will be conducted throughout the plan period to ensure the services being delivered are in line with stakeholder and community needs and priorities.			
Collaboration	WSPHN collaborates with the following stakeholders through regular communication channels including face to face meetings, emails and teleconferencing. <ul style="list-style-type: none"> - WSLHD - WSDPMI - Western Sydney University, - Asthma Foundation, - NBMPHN - SWPHN - NSW Agency for Clinical Innovation - Other partners as needed

POPULATION HEALTH – HEPATITIS	
ACTIVITY TITLE	<i>CF6 Supporting primary care increase screening/management of Hepatitis (CF 6.1)</i>
Existing, Modified, or New Activity	Existing Activity 2018-19 AWP - <i>CF 6.1 Supporting primary care increase screening and management of Viral Hepatitis</i>
Program Key Priority Area	Population Health
Needs Assessment Priority	2018 Needs Assessment Priority number: 5 Priority title: Population Health – Viral Hepatitis Page reference: 10,11 Possible option identified: Yes
Aim of Activity	The aim of this activity is to: <ul style="list-style-type: none"> - Commission activities to address specific viral hepatitis health issues - Reduce hepatitis B disease burden and improve the health outcomes of people living with viral hepatitis in the WSPHN region. - Contribute to improving population health by working with GPs, other health care providers and stakeholders to identify and address factors affecting a person's health
Description of Activity	WSPHN will continue its collaboration with the WSLHD, peak bodies and local partners to implement local strategies to engage and address needs of “at risk” populations and health professionals who support them. Activities to be undertaken include: <ol style="list-style-type: none"> 1. Commissioning health promotion agencies to provide targeted community engagement campaigns and educational sessions to reduce stigma and promote community action targeting Hepatitis B. 2. Commissioning targeted education and training for general practitioners & nurses including promotion of advance prescriber courses delivered by Australasian Society for HIV, Viral Hepatitis & Sexual Health Medicine (ASHM) 3. In partnership with “WSLHD Hotter West program” target practices with high caseloads to improve screening and management. 4. Provide practice development support to Hotter West Clinical Nurse Specialist (hepatology outreach service) to promote uptake of PEN Clinical Audit Tool(CAT) in targeted practices to implement data driven quality improvement projects around Hepatitis 5. Promote the use of Hepatitis care pathways (HealthPathways) to medical professionals
Target population cohort	Populations at risk of Hepatitis B in western Sydney including people from culturally and linguistically diverse backgrounds, priority language groups being Chinese, Arabic, Vietnamese and Korean speaking and Aboriginal Torres Strait Islander peoples
Indigenous specific	No
Coverage	Entire western Sydney PHN region (targeting areas with high burden of disease and low uptake of treatment which include Merrylands-Guildford, Mt Druiett, Auburn, Parramatta).

Consultation	<ul style="list-style-type: none"> - Along with compelling data indicating need, feedback has been received from consumers and health professionals in western Sydney about the need to improve in this area. A recent consumer consultation by Science of Knowing was also conducted. - Stakeholder consultation is ongoing through the Jade Fan working group with its stakeholders. Hepatitis NSW directly engage with the community through various activities and share this via the working group. - Further consultations will be undertaken with medical professional bodies who work with Asian communities e.g. Australian Vietnamese Health Professionals Association NSW 			
Collaboration	<ul style="list-style-type: none"> - A multisector working group called Jade Fan has focused on Hepatitis B in the Asian community and meets regularly to provide advice on emerging issues, joint planning including commissioned education and promotion. - GP and health professional training and education is jointly planned with ASHM and WSLHD to support local education to GPs and practice nurses, including advanced prescriber training. - WSLHD Hotter West Program- working with the hepatology outreach CNC engage GP practices in the use of PENCAT. <p>Community education and mobilisation:</p> <ul style="list-style-type: none"> - Western Sydney Local Health District - Centre for Pop. Health, HIV & other related disease Program, Multicultural Health, Jade Fan Working group, Multicultural HIV Aids & Hepatitis C Service (MHAHS) & Hepatitis NSW, Sydwest, MECCA , Auburn Diversity.

POPULATION HEALTH - HOMELESSNESS	
ACTIVITY TITLE	<i>CF7 Homelessness and Health (CF6.2)</i>
Existing, Modified, or New Activity	Existing Activity <i>2018-19 AWP -CF 6.2 Homelessness and Health</i>
Program Key Priority Area	Other (please provide details) Vulnerable Populations - Homelessness
Needs Assessment Priority	2018 Needs Assessment Priority number: 6 Priority title: Population Health – Homelessness Page reference: 11,12 Possible option identified: Yes
Aim of Activity	The aim of this activity is to improve the health outcomes of people experiencing, or at risk of homelessness by improving access, increase available primary health services and improve service responses.
Description of Activity	<p>This activity will be fully commissioned with Homelessness service providers .</p> <p>Homelessness services will be looking at improving access to support services such as GPs and other main stream services. This is being done through funding agencies that support people experiencing homelessness such as the WASH House and funding community events such as the Western Sydney Homeless Connect day to improve connections to services.</p> <p>WSPHN will work in collaboration local homeless interagency networks, GP's and Emergency Departments to identify and address health service gaps. The PHN will work with partner agencies to respond to some of the barriers in accessing health services and look to extend existing and new services via commissioning.</p> <p>The PHN will leverage off agencies and programs who already have existing rapport with and understanding and knowledge of this vulnerable and hard to reach group. GP's and other primary health practitioners will also be integral to this initiative.</p> <p>The WSPHN will commission support services for people experiencing homelessness through established organisations in western Sydney</p> <p>Additionally, the PHN will look for services to address the particular needs of young people experiencing homelessness and their access to health services.</p>
Target population cohort	People experiencing, or at risk of homelessness in western Sydney
Indigenous specific	No
Coverage	Entire western Sydney PHN region
Consultation	<p>Below is a list of each stakeholder that will be involved in designing and/or implementing this activity;-</p> <ul style="list-style-type: none"> - Western Sydney Homeless Connect - GPs - Primary Care Nurses - WSLHD - Western Sydney District Homelessness Implementation group - NSW FaCS

	<ul style="list-style-type: none"> - Evolve Housing - WASH House - Headspace <p>Further consultation will be conducted throughout the planned period to ensure the services being delivered are in line with stakeholder and community needs and priorities.</p>			
Collaboration	<p>Collaboration has occurred with the following agencies</p> <ul style="list-style-type: none"> - Western Sydney District Homelessness Implementation Group – provided input in service need. - Western Sydney Homeless Connect – Provided input into design and collaboration around a system response. - WSLHD – Provided input into service needs. - WASHHouse, Evolve housing and Headspace provided service specific information and input into needs.

CHILD AND FAMILY	
ACTIVITY TITLE	<i>CF8 Improved health of children and their families (CF 7.1)</i>
Existing, Modified, or New Activity	Existing Activity 2018-19 AWP - <i>CF 7.1 Improved health of children and their families.</i>
Program Key Priority Area	Other (please provide details) Child and Family
Needs Assessment Priority	2018 Needs Assessment Priority number: 4 Priority title: Maternal, Child and Family Page reference: 8 , 9 Possible option identified: Yes
Aim of Activity	The aim of this activity is to continue to support programs and initiatives which address and improve health factors such as: developmental delay, vulnerable families, chronic disease prevention, transitional and integrated care and healthy lifestyle promotion. This activity builds on partnerships between families, community leaders, primary and allied health care providers and other health agencies in the region.
Description of Activity	Enhance the management of child and family health by implementing initiatives that will increase provider capability and capacity to better manage these patients;- <ol style="list-style-type: none"> 1. Improve the capacity of primary, secondary and tertiary health care providers by supporting the General Practitioner Liaison Nurse (GPLN) and continuing to engage with the HealthOne program and participation in multi-agency initiatives. 2. Commission programs to address issues of overweight and obesity through promotion of healthy eating, exercise and healthy lifestyle for both young people and children respectively. 3. Commission programs specialising in activities such as; trauma informed child and family support programs, screening developmental delays and school readiness programs with an ongoing focus on the improvement of services to children with speech and communications delays. 4. WSPHN will collaborate with the Chief Executives of the Sydney Children's Hospital Network, Westmead (SCHN), Western Sydney Local Health District (WSLHD), the Greater Western Sydney Aboriginal Health Service (GWAHS) and other organisations to develop, implement and evaluate a new integrated Child and Family Health Strategic Plan for western Sydney.
Target population cohort	Entire western Sydney PHN region (targeting areas with children, young people and their families in western Sydney)
Indigenous specific	No
Coverage	Entire western Sydney PHN region.
Consultation	Consultation has occurred with the following groups: <ul style="list-style-type: none"> - SCHN & WSLHD: contribute to the Partnership Advisory Committee and its subcommittee the Child and Family Steering Committee and are consulted on the WSPHN activity plans. - WSPHN Advisory Councils: WSPHN consulted with the Clinical Advisory Council and the Consumer Advisory Council which provided advice on the planning of health care in the region and on patient experiences and expectations. This consultation informed commissioning decisions. - The community: is consulted as part of the need's assessment process around the needs of the region.

	<ul style="list-style-type: none"> - local GPs and primary health care providers - local schools and sports clubs - young people and families - Community and Family services - Consumer Advisory Council - Clinical Council 			
Collaboration	<p>Below is a list of stakeholders that will be involved in designing and/or implementing this activity:-</p> <ul style="list-style-type: none"> - Past service users have collaborated by providing feedback to help evaluate the success and relevance of the projects. - Local schools and early childhood centres are partners in several projects and have opportunity for feedback and activity implementation and design. - NSW Government Services including, but not necessarily limited to, NSW Department of Family and Community Services (incorporating community services, education, housing and disability services), NSW Department of Justice (incorporating NSW Police, Corrective Services and Juvenile Justice): partner in planning, delivery and evaluation of initiatives. - Relevant NGO's including those addressing the needs of children and families: partner in planning, delivery and evaluation of initiatives.

ALCOHOL AND OTHER DRUGS	
ACTIVITY TITLE	<i>CF9 Alcohol & Other Drugs – Co-Commission Support Juvenile Justice Clients (CF 8.1)</i>
Existing, Modified, or New Activity	New Activity <i>Co-Commissioned with CF 3.1</i>
Program Key Priority Area	Alcohol and Other Drugs
Needs Assessment Priority	2018 Needs Assessment Priority number: 7 Priority title: Vulnerable Populations – Those recently released Page reference: 11 Possible option identified: Yes
Aim of Activity	This aim of this activity is to provide support for young people leaving the Juvenile Justice system that have alcohol and other drug issues.
Description of Activity	<p>WSPHN will commission a service to employ 2.0 FTE's to provide support for Juvenile Justice clients leaving the system, who have been identified with moderate to severe alcohol and/or other drug (AOD) problems.</p> <p>The programs and initiatives that will be implemented under this activity include, but are not limited to:</p> <ol style="list-style-type: none"> 1. Support young people in relation to AOD, mental health and other problems 2. Support in gaining employment and training opportunities 3. Assist with accessing other relevant services available in the region 4. Work with families to provide support 5. Work closely with the WSLHD and Justice health Integration team 6. Link clients to appropriate mainstream health care services (General Practitioners, Aboriginal Medical Services)
Target population cohort	Juvenile Justice clients residing in western Sydney PHN region that have been identified through the Justice system having AOD dependence
Indigenous specific	Yes Engagement occurs at community events, cross inter-agency meetings and yarning circles.
Coverage	Entire western Sydney PHN region
Consultation	Stakeholder engagement and consultation to support this activity include;- <ul style="list-style-type: none"> - NSW Justice health and Forensic mental health network - Service providers particularly Youth and Community Restorative Centre - Science of Knowing (consultants) - Western Sydney Local Health District - Youth Action NSW - AOD Advisory Committee - NSW probational and Parole - Marrin Weejali (provides support services for Aboriginal and Torres Strait Islander clients)
Collaboration	Below is a list of stakeholders that will be involved in designing and/or implementing this activity;- <ul style="list-style-type: none"> - Western Sydney Local Health District: provision of additional support for clients and working with Youth health services - NSW Justice Health and Forensic mental health network: coordinating approach to deliver of the service and working in partnership

	<ul style="list-style-type: none"> - Service providers: delivering of activity and employment of specialised staff to deliver. Other service providers to provide additional support to clients - Western Sydney AOD advisory committee: support and networks for the delivery - Marrin Weejali: provisional of addition support for clients in accessing a culturally appropriate service - NSW probational and Parole - People holding these roles meet regularly to share and support each other.

REFUGEE HEALTH	
ACTIVITY TITLE	<i>CF10 Support CALD and Refugee Community (CF 9.1)</i>
Existing, Modified, or New Activity	New Activity
Program Key Priority Area	Population Health
Needs Assessment Priority	2018 Needs Assessment Priority number: 7 Priority title: Vulnerable Populations – Refugee and CALD Groups Page reference: 12 Possible option identified: Yes
Aim of Activity	The aim of this activity is to support the delivery of culturally appropriate primary health care to ensure the needs of these communities are met.
Description of Activity	<p>The WSPHN will continue to expand its Refugee health focus whilst ensuring culturally appropriate and safe environments within western Sydney. Due to the complex nature of this activity WSPHN will employ a Cultural support officer to independently guide and coordinate the multifaceted nature of Refugee health and social and emotional wellbeing services in the area.</p> <p>Critical success factors for this function will be neutrality, the ability for this person to move across health sectors and current structures in the WSLHD and the Refugee sector, ensure engagement of the community, cross-sector partnerships and manage change.</p> <p>WSPHN will work to improve access to culturally appropriate, integrated primary care services for refugees by recruiting a Cultural Support Officer to:</p> <ol style="list-style-type: none"> 1. Work collaboratively with local migrant and settlement support services 2. Provide cultural input into the work of primary health providers including strengthening links with CALD communities 3. Increase the capacity of refugee-friendly primary care providers to work together to provide integrated care 4. Assist in the delivery of education activities for primary care providers 5. Provide cultural and linguistic input into health promotional initiatives 6. Improve equity of access and health literacy to meet the needs of the culturally diverse population. 7. Participate in the western Sydney Refugee Health Coalition to identify emerging issues and co-design possible solutions
Target population cohort	Refugees, Asylum Seekers and primary care providers in the western Sydney region
Indigenous specific	No
Coverage	Entire western Sydney region PHN region
Consultation	<p>Consultation has occurred with the following groups:</p> <ul style="list-style-type: none"> - Consumers from CALD background – advise on how to engage with community and inform about emerging issues - Primary Health care providers in western Sydney - WSLHD - Multicultural Health – Lead for Refugee Health coalition - NSW Refugee Health Services, Settlement Services, local migrant centres - Coalition partners who can inform issues consumers are experiencing and emerging health trends and provide access to communities to deliver health promotion activities.

Collaboration	<p>Below is a list of stakeholders that will be involved in designing and/or implementing this activity;-</p> <ul style="list-style-type: none"> - Refugee Health coalition - Western Sydney LHD - Multicultural Health – Lead for Refugee Health coalition - NSW Refugee Health Services, Settlement Services, local migrant centres - Service for the Treatment and Rehabilitation of Torture and Trauma Survivors (STARTTS) - Coalition partners who can inform issues consumers are experiencing and emerging health trends and provide access to communities to deliver health promotion activities. - Consumers from CALD background – advise on how to engage with community and inform about emerging issues

DATA INTEGRATION	
ACTIVITY TITLE	<i>HSI2 Data Integration with NSW Health and WSLHD (HSI 1.2)</i>
Existing, Modified, or New Activity	Modified Activity 2018-19 AWP – <i>HSI 1.2 Data Integration with NSW Health and WSLHD</i>
Needs Assessment Priority	2018 Needs Assessment Priority number: 2 Priority title: Digital Health Page reference: 4,5,6 Possible option identified: Yes
Aim of Activity	Providing information about health care utilisation across the primary and tertiary care sectors by linking datasets. This activity investigates patterns of health service utilisation longitudinally and across existing data siloes, which assists and informs health system planning.
Description of Activity	<p>The project, now entering a staged rollout across NSW, will continue to explore further the ability to utilise and link general practice data to multiple NSW Health and Commonwealth related data sets. The results will provide information that will:</p> <ul style="list-style-type: none"> - Increase General Practitioners understanding of the care of their patient cohort as they navigate the health system. - Provide in-depth understanding of a large cohort of patients as they interact with primary and tertiary care providers across a 5 year period. <p>Outcomes include a dataset in which GP EHR can be linked to administrative health data of NSW Ministry of Health, and death registrations, MBS, PBS, mental health, AOD, MDS and from Registry of Births, Deaths and Marriages to better inform quality and continuity of care.</p> <p>Activities over the next three years include:</p> <ul style="list-style-type: none"> - Expanding the project in terms of reach by scaling up to 50 general practices across the three years - Expanding the project in terms of frequency of data transfer to become both automated and occur at regular periods. - Improved reporting to participating practices with in-depth analysis of linked data.
Associated Flexible Activity/ies:	Not Applicable
Target population cohort	Supporting the primary health care sector: Enable the participating practices with a more comprehensive picture of patient’s health journey across the system that includes detecting access and equity issues, identifying risk factors and establishing causal patterns.
Indigenous specific	No
Coverage	Entire western Sydney PHN region
Consultation	Primary health providers in WSPHN
Collaboration	This work is a collaboration between NSW Health, WSLHD, and WSPHN.
Activity milestone details/ Duration	Activity start date: 1/07/2019 Activity end date: 30/06/2022

	<p>Other relevant milestones</p> <ol style="list-style-type: none"> 1. Expanding the project in terms of reach by scaling up to 50 general practices across the three years 2. Expanding the project in terms of frequency of data transfer to become both automated and occur at regular periods. 3. Improved reporting to participating practices with in-depth analysis of linked data.

CANCER SCREENING	
ACTIVITY TITLE	<i>HSI3 Cancer Screening (HSI 1.3)</i>
Existing, Modified, or New Activity	Existing Activity 2018-19 AWP - <i>HSI 1.3 Cancer Screening- Address the low rates of cancer screening</i>
Needs Assessment Priority	2018 Needs Assessment Priority number: 5 Priority title: Population Health Page reference: 10, 11 Possible option identified: Yes
Aim of Activity	The aim of this activity is to contribute to increasing participation rates in the National cancer screening programs by working with GP's, local health care providers, community stakeholders and people at risk of poor health outcomes.
Description of Activity	Increasing cancer screening rates for (cervical, breast, bowel) are a national headline indicator for Primary Health Networks. The WSPHN will continue to expand its cancer screening focus to increase screening rates by;- <ol style="list-style-type: none"> 1. Continuing to work on the CINSW Primary Care Cancer Screening Strategy to increase access to and participate in cancer screening programs for bowel, breast, cervical. 2. Working with the WSLHD, BreastScreen NSW and the Cancer Institute NSW to support their approach to cancer screening and population health and work in partnership with "WSLHD Cervical Screening Innovation in Cancer Control project" to target practices in Mount Drutt to improve cervical screening and management. 3. Continue to provide support to GP's and other health care providers on identification and management of cancer screening 4. Review and promote the use of Cancer Screening pathways (HealthPathways) to medical professionals.
Associated Flexible Activity/ies:	Not Applicable
Target population cohort	Entire western Sydney PHN region, targeting population groups below; <ul style="list-style-type: none"> - Women over 25 years for cervical screening - Women over 50 years for BreastScreening - Men and women over 50 years for Bowel Screening. - GP practices in low screening areas
Indigenous specific	Yes This activity will engage with our Aboriginal partners to assist with health promotional events and recruitment of people to undertake screening
Coverage	Entire western Sydney PHN region
Consultation	<ul style="list-style-type: none"> - Cancer Institute NSW: The Institute can assist with data sharing and policy changes - Western Sydney Local Health District: Extensive consultation with BreastScreen SW and population health team. - Associated Committees: These committees include representatives from Cancer Institute NSW, Cancer Council and other key stakeholders involved in the care and management of population health cancer screening. - Local Aboriginal Health providers - General Practitioners
Collaboration	<ul style="list-style-type: none"> - Western Sydney Local health District: Consultation and participation in working groups and grant projects

	<ul style="list-style-type: none"> - Greater Western Aboriginal Health Service: for coordination of screening events - Cancer Institute NSW: for strategic Governance and Coordination of screening programs - General Practitioner representatives: for access to referral pathways - Multicultural provider representative's consultation and community engagement. <p>The role of each of these organisations varies for each partnership, however WSPHN is the lead organisation on a number of these initiatives.</p>

STAKEHOLDER ENGAGEMENT	
ACTIVITY TITLE	<i>HS15 Stakeholder Engagement (HSI 1.5)</i>
Existing, Modified, or New Activity	Modified Activity <i>2018-19 AWP – (Combined HSI 1.5 Partnerships and engagement with providers and HSI 1.6 Partnerships and engagement with consumers)</i>
Needs Assessment Priority	2018 Needs Assessment Possible option identified: Yes, Stakeholder engagement is a cross-cutting issue that is applicable across each area of the 2018 Needs Assessment
Aim of Activity	<p>Increase the efficiency and effectiveness of stakeholder engagement, particularly to improve coordination of care to ensure residents of western Sydney receive the right care in the right place at the right time.</p> <p>An important aspect of this activity is to embed the voice of the consumers, community and stakeholders across the work of the WSPHN. To ensure that consumers and members of the wider community have the skills, resources and opportunities to influence and drive the health services priorities in the region.</p>
Description of Activity	<p>In order to achieve the primary objectives of the WSPHN, partnering with local GPs, the LHD and other agencies that impact on both the physical and social determinants of health is a vital component. WSPHN will continue to engage with a wide range of groups and organisations to identify opportunities to broaden current partnerships and identify new possibilities to achieve the priorities included in the Needs Assessment.</p> <p>WSPHN plays an important role in the Western Sydney Strategic Delivery Reform (WSSDR) group with representation on both the Strategic and Operational groups. WSSDR is a collaboration of NSW Government Agencies and the PHN with a specific agenda to improve multi-agency responses to child and family issues in Western Sydney.</p> <p>WSPHN also participates with the Partnership Advisory Committee (PAC) with the WSLHD and the Sydney Children’s Hospitals Network (SCHN) to promote and encourage health agency partnerships in western Sydney. This includes participation in the sub-committees of the PAC – Child & Family Steering Committee, Aged Care, Chronic and Complex, Aboriginal and Mental Health.</p> <p>The population in WSPHN is very diverse and has a variety of challenges, including high levels of chronic and complex care needs. The area is also home to the largest urban Indigenous population in Australia and has numerous areas of disadvantage and one of the most culturally diverse populations in the nation. Partnering and engaging with various parts of the sector will facilitate the development of mutually beneficial activities and initiatives that will contribute to the quadruple aim. They will also ensure education, support, resources and initiatives designed to meet the diverse needs of the community are utilised and maximised.</p> <p>Consumer and community engagement is a whole of organisation activity for WSPHN. WSPHN programs have consumer and carer engagement embedded into their work including design, commissioning and governance. Consumers are supported through training and development activities for consumers to increase their confidence and effectiveness. Consumer Advisory Committee (CAC) meets on a quarterly basis and represent different areas of the population and health needs.</p>

	<p>Consumers and community members are reimbursed for their participation in shared decision making around the plan, design, delivery and evaluation of health services. The WSPHN will continue to partner with Health Consumers NSW (HCNSW) and Consumer Health Forum (CHF) to ensure best practice community engagement and partner with the LHD and SCHN on joint consumer and stakeholder engagement activities to support shared service planning and delivery of health services.</p> <p>WSPHN will continue to develop and/or disseminate stakeholder information more broadly via the WSPHN website, Community HQ project site, HealthPathways, Healthy Western Sydney, e-newsletters and fact sheets. We will also continue to host and attend community and stakeholder forums to engage key stakeholders and encourage them to have their say by exchanging information about health issues.</p>
Associated Flexible Activity/ies:	
Target population cohort	Entire western Sydney population
Indigenous specific	No
Coverage	Entire western Sydney PHN region
Consultation	Consultation occurs through the Needs assessment process, the partnership consultation through SDR and PAC as well as the Consumer Advisory Council.
Collaboration	<p>WSPHN will collaborate in joint projects, initiatives and stakeholder management to meet the needs of the western Sydney community, including;</p> <ul style="list-style-type: none"> - Consumer Advisory Committee: Service planning and recommendations and direction into WSPHNs activities. - Health Consumers NSW (HCNSW): joint project partner, education and training. - Parents and Carers: consumer consultations - WSLHD: partner in planning, delivery and evaluation of initiatives, co-funder of some initiatives, local community partnerships. - Sydney Children’s Hospital Network: partner in planning, delivery and evaluation of initiatives, co-fund some initiatives, local community partnerships. - Sydney West Aboriginal Health Service: partner in planning, delivery and evaluation of initiatives, co-fund some initiatives, local community partnerships. - GP’s, Nurses, Practice Managers, Community sector, Allied health, Local government. - NSW Government Services including, but not necessarily limited to, NSW Department of Family and Community Services (incorporating community services, education, housing and disability services), NSW Department of Justice (incorporating NSW Police, Corrective Services and Juvenile Justice): partner in planning, delivery and evaluation of initiatives - Relevant Non-Government Organisations including those addressing the needs of children and families, Aboriginal and Torres Strait islander and CALD communities, drug and alcohol services, mental health social support and disability services and services or groups supporting ex-prisoners: partner in planning, delivery and evaluation of initiatives.

HEALTHPATHWAYS	
ACTIVITY TITLE	<i>HS17 Care Pathways (HealthPathways) (HSI 1.7)</i>
Existing, Modified, or New Activity	<i>Existing Activity</i> <i>2018-19 AWP - HSI 1.1 Digital Health Enablers</i>
Needs Assessment Priority	2018 Needs Assessment Priority number: 2 Priority title: Digital Health Page reference: 4,5,6 Possible option identified: Yes
Aim of Activity	<p>The key aim of the program is to improve the overall quality of care received in the region by providing Primary Care clinicians with up to date information and guidance on the agreed management of various medical conditions. Utilisation and adherence to the care pathways can:</p> <ul style="list-style-type: none"> – Decrease variations of care in primary care, and unwarranted care, – Increase GP capacity to manage patients within the community, – Avoid unnecessary hospital admissions and more effectively manage chronic and more, – complex care in a community setting, – Reduce the number of inappropriate referrals, – Improve quality of referrals to specialists, – Increase patient access to services. <p>The corresponding objective of the program is to improve collaboration and coordination across the healthcare sector; specifically, between primary, specialist, and hospital services. Engagement of clinicians throughout the care continuum in the planning and development of care Pathways offers opportunities to:</p> <ul style="list-style-type: none"> – Collaborate on service re-design initiatives, – Identify potential service gaps in the region, – Strengthen relationships of primary and secondary care providers – Build capacity amongst primary care providers to manage a wider range of conditions in the community.
Description of Activity	<p>HealthPathways is a web-based health informational portal for General Practitioners and other healthcare providers to utilise during a consultation to assist with the assessment, management, and referrals to local specialists and services. It also provides patient information, reference materials, and education resources to increase the capacity for patients to actively assist in the management of their own health.</p> <p>Pathways are developed by GP Clinical Editors in collaboration with a range of healthcare professionals including; specialists, nurses, and allied health providers. All pathways are periodically reviewed and updated as required by GP Clinical editors.</p> <p>The commissioned activity includes the provision of technical writing, community fees, website hosting and a sophisticated system to keep track of content in development.</p>
Associated Flexible Activity/ies:	<i>CF 2.1 Care Pathways (HealthPathways)</i>

GENERAL PRACTICE SUPPORT	
ACTIVITY TITLE	<i>GPS3 Improve Antenatal Shared care coverage and health outcomes (GPS 1.3)</i>
Existing, Modified, or New Activity	Existing Activity <i>2018-19 AWP – GPS 1.3 Improve Antenatal Shared coverage and health outcomes</i>
Needs Assessment Priority	2018 Needs Assessment Priority number: 1 Priority title: Coordination and Integration of Services Page reference: 2,3 Possible option identified: Yes
Aim of Activity	The aim of this activity is to provide a high standard holistic model of antenatal shared care for women who have a low risk pregnancy
Description of Activity	<p>WSPHN will continue to support the Antenatal shared care approach to care within western Sydney by:-</p> <ol style="list-style-type: none"> 1. Maternity, antenatal and gynaecological care pathways will be developed and reviewed. 2. <i>Professional development:</i> WSPHN will support educational opportunities for GPs across western Sydney to participate in the <i>Antenatal Shared Care Program</i>. ANSC is the division of care of pregnant women between the general practitioner and the hospital antenatal clinic. Antenatal Shared Care (ANSC) is an option for pregnant women with no adverse maternal or foetal pregnancy risk factors. <p>If a pregnant woman becomes infected with some diseases, her unborn baby can be harmed. Newborn children can also be harmed if their mothers have an infection. The WSPHN will therefore support General Practice in the health promotion of immunisation and pregnancy including influenza and whooping cough vaccines.</p>
Associated Flexible Activity/ies:	Where applicable, provide the Activity Number/s for any associated flexible functions associated with, or directly supported by, this Activity.
Target population cohort	GPs in the WSPHN Region Low risk pregnant women in western Sydney
Indigenous specific	No
Coverage	Entire western Sydney PHN region (including Auburn, Blacktown and Westmead Hospitals)
Consultation	<ul style="list-style-type: none"> - Western Sydney Local Health District and Sydney Children’s Hospital Network: Extensive consultation, including consultation at associated subcommittees. - WSPHN Advisory Groups: These include the Clinical and Consumer Advisory Councils in which regular consultation is undertaken - GP’s in western Sydney
Collaboration	<p>Collaboration has occurred with the following stakeholders:</p> <ul style="list-style-type: none"> - GPs - WSLHD - SCHN

	Ongoing consultation is conducted throughout the plan period to ensure the services being delivered are in line with stakeholder and community needs and priorities.
